WORK EXPERIENCE

Teacher of computer professions, Lehava, Kiryat Motzkin (Israel)

July 2015–September 2015

Lehava is a project on behalf of the Israeli government aimed at reducing digital gaps in Israeli society.

During the summer vacation, I took part in a project as a teacher.

- Teaching children and adults from different backgrounds and personal problems.
- Providing personal help to people and children with special difficulties such as language difficulties, learning difficulties and other social difficulties.
- The main role was to teach the students how to use the computer and Internet services, including Office software, online government services, basic programming in various programming languages, and the use of the Internet for informational purposes.

Sales Person and branch manager, G3 Communications solutions (Celltech LTD), Haifa and Tel-Aviv (Israel)

May 2014–July 2015

- Frontal sales and customers service in a cellular shop.
- Selling cellular, accessories and gadgets.
- Customers service - Private customers and business (wholesale shop).
- Worked also with the suppliers of the company - purchasing goods and returning damaged goods, receiving refunds from the suppliers.
- Managing the Haifa branch includes managing 3 employees, ordering goods, managing returns of goods and returns from customers, providing service to private and business customers and handling complaints through the company's Facebook page.
